HUMAN DECISION REQUIRED - EXTERNAL RELEASE REFUSED

Trust dimensions

Dimension	State	Basis	Gaps
identity	SUPPORTED	model identity fields are source supplied and fingerprint bound	None
provenance	SUPPORTED	source references and hashes retained in the envelope	None
evaluation	SUPPORTED	evaluations are purpose, model and expiry bound	None
freshness	SUPPORTED	evaluation expiry and model binding evaluated	None
authority	NEEDS_YOU	consequential authority must be explicit and human-bound	authorised human decision absent
tool_safety	REFUSE	requested tool, target and effect compared with declared capability scope	untrusted instruction detected; one or more actions exceed declared scope
data_boundary	SUPPORTED	declared retention, disclosure and sensitive-data handling inspected	None
integrity	SUPPORTED	claimed and observed output digests compared	None
drift	SUPPORTED	baseline fingerprints compared with current fingerprints	None
release	REFUSE	compilation and internal review never authorize external release	explicit authorised release receipt required

Drift and untrusted content
