

FundingFinder

An applicant-specific shortlist with criterion evidence, timing checks and next-document requests.

Illustrative demonstration

The following pages use fictional source records prepared for controlled testing. They are examples of the service output, not actual customer results or an independent professional endorsement.

This example uses a fictional funding programme. Actual current windows and eligibility must be confirmed with the funder.

A customer engagement starts with your actual source material, an agreed scope, and an identified reviewer. Final interpretation and release remain with the accountable person.

Synthetic community workshop shortlist

Applicant: Synthetic workshop enterprise. Screening as of 2026-10-27. Controlled opportunity research; eligibility is not certified and no award is guaranteed.

Ranked opportunity shortlist

Fit and timing on supplied records

Rank	Opportunity	Fit	Timing	Score
1	Synthetic pilot grant	appears aligned on supplied record	within stated deadline	4

Ranking sorts apparent alignment, unresolved eligibility, mismatches and closed/not-yet-open calls in that order. Within a class: met +2, mismatch -4 and unknown -1, multiplied by each explicit criterion weight; unknown timing -10, closed timing -1000. Scores compare the supplied records; they are not funding probabilities.
